

POINT_DocProd_ClarionDoor visio definitions

The order of these steps evolved over time given the initial sequence of distribution. Over time, it was easier and more stable to alter the effected steps rather than re-engineering parts of the process.

It would be a good time to revamp certain parts of this process, such as grouping the "BATCH 10" related stuff earlier in the process or the elimination of the AGT recipient (except for CN/NR for WY)

This table documents the current DocProd processing.

What is not in this document is the definitions of the supporting reports that EXELA uses to perform its processing.

Also not in this document is the file definition for PBATCH.CSV and DAP.XML.

#	Title	Description
1	Peel off All ELC's. For internal use only Not printed or mailed. Will go to OnBase.	RECIP = ELC Separate Print Requests will be created for each policy depending on the transaction. Most likely for the following RECIPS: For NB, RB, EN: INS, AGT, ELC, various Policy Interests For CN, NR: INS, AGT, OTHINT PDFs for these policies will be sent to OnBase. PDFs for these policies will NOT be sent to EXELA.
2	Peel off any PAPERLESS policies	RECIP= INS This only effects the INS recipient for Transaction = NB, RB, EN For NB: Check BASP0200E.INEMAILIND. If = Y, then policy is paperless. For RB,EN: Using Policy Symbol + Policy Number (no module), do a table lookup into PPOL.TBL PMSP0200.SYMBOL + PMSP0200.POLICY0NUM If the policy is in the PPOL.TBL, then the policy is paperless. All paperless policies need to be written to PBATCH.CSV. Format to be provided. PDFs for these policies will be sent to OnBase. PDFs for these policies will NOT be sent to EXELA.
3	Peel off all AGT copies	RECIP = AGT For NB,RB,EN: It is TBD if MOE will continue generating AGT recipient copies. If created: PDFs for these policies will be sent to OnBase. PDFs for these policies will NOT be sent to EXELA.
4	Peel off all AGT copies for	RECIP = AGT For NR: It is TBD if MOE will continue generating AGT recipient copies.

	NR's for closed Agencies OL10 notice is created.	If PMSPAG00.AGNMSTAT1 = C, then the agency is a "closed" agency and the OL10 notice has been generated. If created: PDFs for these policies will be sent to OnBase. PDFs for these policies will NOT be sent to EXELA.
5	Catch any Emerald Series Church policies Send to BATCH 10 for return to MOE. There shouldn't be any. BATCH10 is the catchall. MOE needs to define what to do with these, if any.	RECIPS = any recip For any Transaction If PMSP0200. COMPANYONO = "01", then the policy is Emerald Series Church. If created: PDFs for these policies will NOT be sent to OnBase. PDFs for these policies will NOT be sent to EXELA. Ultimate disposition – TBD.
6	Send the INS copy to the AGENT, instead of mailing to INSURED, according to. List of Agent #'s, LOB, Individual pols - ALLTOAGT or RENTOAGT	RECIP = INS There is a list of agent numbers that request ALL of their RB policies to be sent to the AGENT instead of direct mailed to the insured. There is a list of agent numbers that request ALL of their EN policies to be sent to the AGENT instead of direct mailed to the insured.
